

The name that built an industry™

Cultured Stone® by Boral®

StoneCAD® 7.0 for Cultured Stone® by Boral®

StoneCAD® is the industry standard for architects, engineers, landscape designers or anyone else responsible for the design, documentation or detailing for construction that includes Cultured Stone® by Boral® veneers and trims.

Assisting architects, designers, builders and other professionals since being released on CD in 1996, the new web-based version allows users to access StoneCAD® 7.0 from any computer or mobile device.

The new StoneCAD® 7.0 requires no installation or downloading of software. Simply log on to the StoneCAD® website to **access StoneCAD® 7.0's entire library of interactive tools and collections including hatch patterns, seamless maps and MORE...all available to you with the click of a mouse.**

StoneCAD® 7.0 is a complete interactive online resource to help you select, visualize, detail and specify Cultured Stone® brand colors and textures for all your popular industry design applications including; AutoCAD®, ArchiCAD, DesignCAD, Revit® and Vectorworks.

For more information and to access StoneCAD® 7.0, please visit www.stoneCAD.com.
